INDEX TO VOLUME XXXV

The asterisk * preceding the page number indicates an original article in the Journal. The letter T preceding the page number indicates a paper reported in the Transactions of the American Association of Neuropathologists. The letter D preceding the page number indicates a discussion of an original article or some other item published in the Journal. The letter B preceding the page number indicates a book review. Subject entries are made for all articles. Author entries are made for original articles and Society Transactions.

Abnormal deposits of aluminium and magnesium in the globus pallidus in Parkinson's disease, T377
– unit membranes and subunit periodicity in human spongiform encephalopathy (Creutzfeldt-Jakob disease), T317
Abou-Donia, M. B., see Preissig, S. H., T303
Absence of no-reflow after unilateral carotid artery occlusion in the gerbil, T96
Adachi, M., Tsai, C.-Y., Hoffman, L. M., Schneck, L., and Volk, B. W., experimentally induced G_{M1} gangliosidosis in rats, T104
–, Volk, B. W., Amsterdam D., Brooks, S., Tanapat, P., and Broome, J. D., light and electron microscopic studies of "nude" mice CNS after subcutaneous administration of the E variant of the encephalomyocarditis virus, T318
–, Volk, B. W., and Schneck, L., histological and ultrastructural features of experimental Gaucher mice at early stage induced by subcutaneous injection of conduritol-B-epoxide, T344
Adaptation of cytocentrifuge technique for histochemical study of central nervous system neoplasms, T357
Aguayo, A. J., Bray, G. M., Terry, L. C., and Sweezey, E., three dimensional analysis of unmyelinated fibers in normal and pathologic autonomic nerves, *136
–, see Romine, J. S., T118
Agamanolis, D. P., Robinson, H. B., Jr., and Timmons, G. D., cerebro-hepato-renal syndrome. report of a case with histochemical and ultrastructural observations, *226
–, Victor, M., Chester, E. M., Banker, B. Q., Kark, J. A., Hines, J. D., and Harris, J. W., neuropathological changes in vitamin B_{12} deficient monkeys, T104
Albuquerque, E. X., see Pence, R. S., T105, T373
Alcalá, H., Torack, R. M., and Gado, M., correlative EMI scan-neuropathology study of cerebral infarcts, T95
–, see Torack, R. M., *385
Allen, T., see Tellez-Nagel, I., T112
Allergic encephalomyelitis: role of adrenals and stress in relapses and in suppression by starvation, T106
Alloxan diabetic neuropathy: electron microscopic studies, T335
Alpers, M. P., see Masters, C. L., *593
Alvira, M. M., Mendoza, M., and Mandybur, T. I., abnormal unit membranes and subunit periodicity in human spongiform encephalopathy (Creutzfeldt-Jakob disease), T317
Alvord, E. C., Jr., Kogon, M. B., and Shuman, R. M., onset of myelination in the human nervous system, T115
–, see Clarren, S. K., T372
–, see Leech, R. W., T114, T115
–, see Shaw, C. M., T375
Alzheimer neurofibrillary change in subacute sclerosing panencephalitis, T300
Ambler, M., see Pogacar, S., T119
Amsterdam, D., see Adachi, M., T318
Analysis of the clonogenic population of human brain tumors, an, – a preliminary report, 53
– – – mechanism of immune-mediated demyelination in the rabbit eye, T326
Anderson, D. K., see Means, E. D., T348
Anderson, E., see Baringer, J. R., T316
Anderson, P. J., see Choi, H. H., T357
Annulate lamellae in the pituitary gland, T360
Ansari, K. A., biochemical and immunological studies with human optic and olfactory tracts, T329
–, Hendrickson, H., and Rand, A., electrophoretic and morphologic studies on normal human white matter obtained at surgery with special reference to its basic protein component, *606
–, Rand, A., Hendrickson, H., and Bentley, M. D., qualitative and quantitative studies on human myelin basic protein *in situ* with respect to time interval between death and autopsy, *180
Antanitus, D. S., see Choi, B. H., T115, T307
Antenatal diagnosis of globoid cell leukodystrophy: enzymatic and pathologic confirmation in an affected fetus, T375
Anterior horn cell eosinophilic cytoplasmic inclusion bodies in sporatic motor neuron disease of adults, T368
Antigenic properties and myelin basic protein content in Schwann cells and oligodendroglia, T329

Arachnoid cysts and hydrocephalus in Hunter's type of mucopolysaccharidosis, T119
Araoz, C. A., see Bornhofen, J. H., T309
Arees, E. A., and Åström, K.-E., transneuronal changes in the lateral geniculate nucleus and optic tectum following unilateral eye enucleation in the newborn rat, T305
Argyrakis, A., see Goebel, H. H., T364
Armbrustmacher, V. A., see Heffner, R. R., T305
Armstrong, C. L., see Miranda, A. F., T339
Arnason, B. G. W., see Chelmicka-Szorc, E., T108
–, see Powell, H. C., T341
–, see Richman, D. P., T113
Asbury, A. K., see Brown, M. J., T116, T336
Aschenbrener, C. A., and Frommes, S. P., comparative ultrastructure of melanotic lesions of the nervous system, T357
Aspirin therapy of platelet aggregation in cerebral microcirculation, T333
Association of amyloid with pituitary adenomas, the, T361
Astrocytes, adult staggerer, fine structure, *63
– of the adult staggerer cerebellum, T90
Åström, K.-E., see Arees, E. A., T305
–, see Chelmicka-Szorc, E., T108
Atypical periventricular leukomalacia in a neonatal intensive care unit, T308
Averill, D. R., Jr., Moxon, E. R., and Smith, A. L., Haemophilus influenzae meningitis in infant rats: effects on neuronal growth and synaptogenesis, T114
–, Jr., see Gilles, F. H., T368
Avrameas, S., see Gonatas, N. K., T91
Axelrod, F., see Grover-Johnson, N., T95
Axon reaction in immature rat thalamus, ultrastructure, *191
– – – central and peripheral neurons of adult cat. RNA cytochemistry, T304
Axonal abnormalities in optic nerves of jimpy mice, T309

Baker, R. R., see Carpenter, S., T344
Balentine, J. D., ultrastructural pathology of experimental spinal cord trauma: axonal changes, T90
–, see McKeever, P. E., T352
–, see Ogilvie, R. W., T301
–, see Powers, J. M., *14
Bank, W. J., Schotland, D. L., Capuzzi, D. M., and Morrison, A. D., muscle carnitine deficiency, fat mobilization and ketoacidosis, T373
Banker, B. Q., see Agamanolis, D. P., T104
Baral, B., see Itabashi, H. H., T117
Baringer, J. R., Anderson, E., and Klassen, T., intraneuronal vacuoles. observations in herpes simplex virus infected ganglia, T316
–, see Townsend, J. J., T94, T100
–, see Wolinsky, J. S., T94, T339
Barnes, R., Cohen, D. N., Goren, H., and Steinberg, M. C., familial vitreous and meningovascular amyloidosis, T118
Barrels in somatosensory cortex of the reeler mutant mouse, T307
Barrier function of the perineurium, T320
Barron, K. D., Cova, J., and Schreiber, S., axon reaction in central and peripheral neurons of adult cat. RNA cytochemistry, T304
–, see Dentiger, M. P., T304
Baumbach, G. L., Cancilla, P. A., Hayreh, M. S., and Hayreh, S. S., an investigation of experimental optic nerve injury with an ultrastructural protein tracer, T332
Becker, L. E., see Yates, A. J., T363
Beggs, J. L., and Waggener, J. D., enhanced endothelial vesicular activity associated with post traumatic HRP leakage in the cord, T95
Behar, A. J., see Yarom, R., *445
Bender, A. N., and Engel, W. K., light-cored dense particles in mitochondria of a patient with skeletal muscle and myocardial disease, *46
Benitz, W. E., Dahl, D., Williams, K., and Bignami, A., CNS fractions enriched in nerve and glial fibers. immunological and biochemical studies, T345
Bentley, M. D., see Ansari, K. A., *180
Berti, F., see Clementi, F., *665
Bigbee, J., see Deck, J. H., T362
Bignami, A., see Benitz, W. E., T345
–, see VandenBerg, S. R., T354
Bigner, D. D., oncogenic viruses as tools for the induction of experimental brain tumors and as possible etiologic agents of neoplasms of the human nervous system, T381
–, see Copeland, D. D., T356
– see Vick, N. A., T358
Bijlani, V., see Gopinath, G., *125
Bilbao, J. M., Kovacs, K., and Horvath, E., annulate lamellae in the pituitary gland, T360
Biochemical and immunological studies with human optic and olfactory tracts, T329
Blank, N. K., Yung, W., and Vick, N. A., blood vessels and "blood channels" in experimental viral-induced mammalian gliomas, T102
–, see Schulman, S., T117
Blood-brain barrier alterations in acute experimental hypertension ultrastructural studies, T332
– – systems in acute lead encephalopathy, T103
– vessels and "blood channels" in experimental viral-induced mammalian gliomas, T102
Bloom, A., see Cravioto, H., T356
Bloom, B. R., see Brosnan, C. F., T326
Bodian, D., see Davis, L. E., T98
Body, R., see Shaw, C., T103
Boehme, D. M., see Schaumburg, H. H., T312
Bonilla, E., see Graham, D. I., *1
Bornhofen, J. H., Sun, C. N., and Araoz, C. A., segmental peripheral nerve demyelination in classical Pelizaeus-Merzbacher disease type I. an ultrastructural study, T309

Bornstein, M. B., and Raine, C. S., initial changes in myelin configuration in CNS cultures exposed to EAE serum, †325
–, see Raine, C. S., †369
–, see Snyder, D. H., †324
Bouldin, T. W., and Krigman, M. R., blood-brain barrier systems in acute lead encephalopathy, †103
Bradley, W. G., Fewings, J. D., Harris, J. B., and Johnson, M. A., delayed radiation myeloradiculopathy in the rat: spinal and neuromuscular changes, †380
Brain and skull, melanotic neuroectodermal tumors of, *508
Bray, G. M., see Aguayo, A. J., *136
–, see Romine, J. S., †118
Brierley, J. B., see Levy, D. E., †96
Brightman, M. W., see Sato, M., †333
Brissie, N. T., see McKeever, P. E., †360

CONTENTS OF VOLUME XXXV

NUMBER 1, JANUARY, 1976

Core Formation on the Muscles of Rats Intoxicated with Triethyltin Sulfate. D. I. GRAHAM, M. B., ChB., PH.D., E. BONILLA, M.D., N. K. GONATAS, M.D., AND D. L. SCHOTLAND, M.D., Philadelphia, Pennsylvania 1

Retroperitoneal Ganglioneuroblastoma: A Kaleidoscope of Neuronal Degeneration. A Light and Electron Microscopic Study. J. M. POWERS, M.D., J. D. BALETINE, M.D., H. M. WIŠNIEWSKI, M.D., PH.D., AND R. D. TERRY, M.D., Charleston, South Carolina, and Bronx, New York 14

Studies to Improve Fixation of Human Nerves. IV. Effect of Time Elapsed Between Death and Glutaraldehyde Fixation on Density of Microtubules and Neurofilaments. A. OHNISHI, M.D., P. C. O'BRIEN, PH.D., AND P. J. DYCK, M.D., Rochester, Minnesota . 26

Reactive Microglia with Membrane Features of Mononuclear Phagocytes. M. OEHMICHEN, AND H. HUBER, Tübingen, West Germany, and Innsbruck, Austria 30

Histological Defects in the Cerebellum of Adult Lurcher (Lc) Mice. D. B. WILSON, PH.D., Davis, California 40

Light-Cored Dense Particles in Mitochondria of a Patient with Skeletal Muscle and Myocardial Disease. A. N. BENDER, AND W. K. ENGEL, Bethesda, Maryland 46

Edema of the Cortical Gray Matter of the Human Cerebrum. I. FEIGIN, M.D., AND G. N. BUDZILOVICH, M.D., New York, New York 53

The Fine Structure of Astrocytes in the Adult Staggerer. A. HIRANO, M.D., AND H. M. DEMBITZER, PH.D., New York, New York 63

The Pathologic Characteristics of Leukostasis and Leukemic Nodules Occurring in the Central Nervous System of Guinea Pigs with L_2C/NB Leukemia. E. M. NADEL, M.D., AND J. S. NELSON, M.D., St. Louis, Missouri 75

American Association of Neuropathologists, 51st Annual Meeting 90

Selected Neuropathological Titles 121

Obituary 124

NUMBER 2, MARCH, 1976

Undernutrition and the Developing Cerebellar Cortex in the Rat. G. GOPINATH, M.B., B.S. M.S. (Anat.), V. BIJLANI, M.B., B.S., M.S. (Anat.), PH.D., AND M. G. DEO, M.B., B.S., M.D., (Path.), PH.D., New Delhi, India 125

Three Demensional Analysis of Unmyelinated Fibers in Normal and Pathologic Autonomic Nerves. A. J. AGUAYO, M.D., G. M. BRAY, M.D., L. C. TERRY, M.D., AND E. SWEEZEY, Montreal, Que., Canada 136

Membranous Bodies in the Cerebral Cortex of Aging Rats: An Electron Microscopic Study. D. W. VAUGHAN, PH.D., Boston, Massachusetts 152

Studies to Improve Fixation of Human Nerves. V. Effect of Temperature, Fixative and $CaCl_2$ on Density of Microtubules and neurofilaments. A. OHNISHI, M.D., P. C. O'BRIEN, PH.D., AND P. J. DYCK, M.D., Rochester, Minnesota 167

Qualitative and Quantitative Studies on Human Myelin Basic Protein in Situ with Respect to Time Interval Between Death and Autopsy. K. A. ANSARI, M.D., A. RAND, B.S., H. HENDRICKSON, PH.D., AND M. D. BENTLEY, M. S., Minneapolis, Minnesota 180

Ultrastructure of the Axon Reaction in the Immature Rat Thalamus. V. S. COX, JR., D.V.M., PH.D., Columbia, Missouri 191

Selected Neuropathological Titles 204

NUMBER 3, MAY, 1976

Peripheral Nerve Changes Induced by Methyl n-Butyl Ketone, and Potentiation by Methyl Ethyl Ketone. K. SAIDA, M.D., J. R. MENDELL, M.D., AND H. S. WEISS, PH.D., Columbus, Ohio 207

Cerebro-Hepato-Renal Syndrome, Report of a Case with Histochemical and Ultrastructural Observations. D. P. AGAMANOLIS, M.D., H. B. ROBINSON, JR., M.D., AND G. D., TIMMONS, M.D., Cleveland and Akron, Ohio 226
Experimental Panencephalitis Induced in Suckling Mice by Parainfluenza Type 1 (6/94) Virus. I. Clinical and Pathological Features. L. B. RORKE, M.D., D. H. GILDEN, M.D., Z WROBLEWSKA, M.D., AND J. S. WOLINSKY, M.D., Philadelphia, Pennsylvania and San Francisco, California 247
Experimental Panencephalitis Induced in Suckling Mice by Parainfluenza Type 1 (6/94) Virus. II. Virologic Studies. D. H. GILDEN, M.D., Z. WROBLEWSKA, M.D., M. CHESLER, B.S., M. C. WELLISH, B.S.C., F. S. LIEF, PH.D., J. S. WOLINSKY, M.D., AND L. B. RORKE, M.D., Philadelphia, Pennsylvania and San Francisco, California 259
Experimental Panencephalitis Induced in Suckling Mice by Parainfluenza 1 (6/94) Virus. III. Ultrastructural Studies. J. S. WOLINSKY, M.D., D. H. GILDEN, M. D., AND L. B. RORKE, M.D., San Francisco, California and Philadelphia, Pennsylvania 271
"Paramyxovirus-Like" Intranuclear Inclusions Occurring in the Nervous System in Diverse Unrelated Conditions. M. HAYANO, M.D., J. H. SUNG, M.D., AND A. R. MASTRI, M.D., Minneapolis, Minnesota 287
Selected Neuropathological Titles 295
Abstracts, American Association of Neuropathologists, 52nd Annual Meeting 300

NUMBER 4, JULY, 1976

Correlative Assay of Computerized Cranial Tomography (CCT) Water Content and Specific Gravity in Normal and Pathological Postmortem Brain, R. M. TORACK, M.D., H. ALCALA, M. D., M. GADO, M. D., AND R. BURTON, PH.D., St. Louis, Missouri 385
Pigmented Ganglioneuroblastoma: Relation of Melanin and Lipofuscin to Schwannomas and Other Tumors of Neural Crest Origin. J. F. HAHN, M.D., M. G. NETSKY, M.D., A. B. BUTLER, M.D., AND E. E. SPERBER, M.D., Charlottesville, Virginia, Portsmouth, Virginia, and Nashville, Tennessee 393
Organ Culture of Craniopharyngioma and its Cellular Effects Induced by Colloidal Chromic Phosphate. H. F. YOUNG, M.D., Y-S. FU, M.D., AND M. J. FRATKIN, M.D., Richmond, Virginia 404
Pathogenesis of Methylazoxymethanol-Induced Lesions in the Postnatal Mouse Cerebellum. M. Z. JONES, M. D., AND E. GARDNER, B. S., East Lansing, Michigan 413
Gold Tracer Studies of Muscle Regeneration. R. YAROM, M.D., A. J. BEHAR, M.D., L. YANKO, M.D., T. A. HALL, PH.D., AND P. D. PETERS, PH.D., Jerusalem, Israel, and London, England 445
Giant Axonal Neuropathy—A Generalized Disorder of Cytoplasmic Microfilament Formation. J. W. PRINEAS, M.B., B.S., M.R.C.P. (Lond.), R. A. OUVRIER, M.B., B.S., R. G. WRIGHT, M.Sc., J. C. WALSH, M.D., M.R.A.C.P., AND J. G. MCLEOD, M.B., B.S., PH.D. (Oxon.), M.R.A.C.P., East Orange, New Jersey, and Sydney, Australia 458
Selected Neuropathological Titles 471

NUMBER 5, SEPTEMBER, 1976

Progressive Multifocal Neurologic Deficit with Disseminated Subpial Demyelination. A. M. GALABURDA, M.D., S. G. WAXMAN, M. D., PH.D., T. L. KEMPER, M. D., AND H. R. JONES, M.D., Boston Massachusetts 481
Some Chemical Principles Applicable to some Silver and Gold Staining Methods for Neuropathological Studies. I. FEIGIN, M.D., AND J. NAOUMENKO, New York, New York 495
Melanotic Neuroectodermal Tumors of the Brain and Skull. J. F. HAHN, M.D., E. E SPERBER, M.D., AND M. G. NETSKY, M.D., Charlottesville and Portsmouth, Virginia, and Nashville, Tennessee 508
Training Programs in Neuropathology: A Study and an Inquiry Into Distribution of Neuropathologists. M. G. NETSKY, M.D., Nashville, Tennessee 520

Electron Microscopic Study on the Satellite Cell, in the Muscle of Duchenne Muscular Dystrophy. Y. WAKAYAMA, M.D., TSURUMAI-CHO, SHOWA-KU, NAGOYO, Japan 532
A Case of Human Rabies and Ultrastructure of the Negri Body. J. H. SUNG, M.D., M. HAYANO, M.D., A. R. MASTRI, M.D., AND T. OKAGAKI, M.D., Minneapolis, Minnesota 541
Primate Model for Cerebral Hematoma. J. P. LAURENT, M.D., G. F. MOLINARI, M.D., AND J. C. OAKLEY, M.D., Philadelphia, Pennsylvania, Bethesda, Maryland, and Seattle, Washington 560
Experimental Autoimmune Myasthenia Gravis: A Sequential and Quantitative Study of the Neuromuscular Junction Ultrastructure and Electrophysiologic Correlations. A. G. ENGEL, M.D., M. TSUJIHATA, M.D., E. H. LAMBERT, M.D., PH.D., J. M. LONDSTROM, PH.D., AND V. A. LENNON, M.D., PH.D., Rochester, Minnesota, and San Diego, California 569
Selected Neuropathological Titles 588

NUMBER 6, NOVEMBER, 1976

Preclinical Lesions and Their Progression in the Experimental Spongiform Encephalopathies (Kuru and Creutzfeldt-Jakob Disease) in Primates. C. L. MASTERS, B. Med. Sci., M.B., B. A. KAKULAS, M.D., M. P. ALPERS, M.B., D. C. GAJDUSEK, M.D., AND C. J. GIBBS, JR., PH.D., Shenton Park, Western Australia, and Bethesda, Maryland 593
Electrophoretic and Morphologic Studies on Normal Human White Matter Obtained at Surgery with Special Reference to its Basic Protein Component. K. A. ANSARI, M.D., H. HENDRICKSON, PH.D., AND A. RAND, B.S., Minneapolis, Minnesota 606
Striated Muscle in the Pineal Gland of Swine. M. HAYANO, M.D., J. H. SUNG, M.D., AND E. G. HILL, PH.D., Minneapolis, Minnesota 613
Fetal Metachromatic Leukodystrophy: Pathology, Biochemistry and a Study of In Vitro Enzyme Replacement in CNS Tissue. S. E. PODUSLO, B.S., G. TENNEKOON, M.D., D. PRICE, M.D., K. MILLER, AND G. M. MCKHANN, M.D., Baltimore, Maryland 622
Effects of an Ionophore X-537A, on Mouse CNS Cultures: A Light and Electron Microscope Study. A. R. TESSLER, M.D., S. U. KIM, M.D., AND N. K. GONATAS, M.D., Philadelphia, Pennsylvania 633
Infection and Disease Induced in Chimpanzees with 6/94, A Parainfluenza Type I Virus Isolated from Human Multiple Sclerosis Brain. F. S. LIEF, PH.D., L. B. RORKE, M.D., S. S. KALTER, PH.D., S. F. HOFFMAN, M.D., R. A. ROOSA, PH.D., G. T. MOORE, D.V.M., L. B. CUMMINS, D.V.M., B. MCCULLOUGH, D.V.M., A. R. RODRIQUEZ, M.S., J. EICHBERG, AND H. KOPROWSKI, M.D., Philadelphia, Pennsylvania, and San Antonia, Texas 644
Immunization of Rabbits with Specific Components of Postsynapic Membrane: Acetylcholinesterase and Cholingergic Receptor. F. CLEMENTI, M.D., B. CONTI-TRONCONI, M.D., F. BERTI, PH.D., AND G. FOLCO, PH.D., Milano, Italy 665
Sarcoma Arising in Oligodendroglioma of the Brain. I. FEIGIN, M.D., J. RANSOHOFF, M.D., AND A. LIEBERMAN, M.D., New York, New York 679
Selected Neuropathological Titles 685
Index to volume XXXV 691
